DECKS & ADDITIONS

TECHNO METAL POST

THE IDEAL FOUNDATION FOR YOUR DECK OR ADDITION

We all know how crucial it is to have a solid foundation when building a deck or addition.

We've engineered our helical piles to meet the highest standards, through precise design and rigorous testing. This ensures they withstand the heaviest loads and toughest soil conditions.

We have also designed and created a series of hydraulic machines, exclusively for the installation of helical pile foundations, eliminating the need for excavation.

If you have an existing deck foundation that requires attention, our certified installers can reinforce it by removing only a few boards, then installing the piles underneath the existing base. Using Techno Metal Post's helical piles, ensures minimal impact on your lawn and surrounding landscape.

WHY CHOOSE TECHNO METAL POST ?

SIMPLE AND QUICK

NO EXCAVATION

LOW FOOTPRINT

ENGINEERING SERVICE

STANDARDS COMPLIANCE

TECHNO METAL POST'S HELICAL PILES ARE CERTIFIED AND GUARANTEED
