HELICAL PILE FOUNDATIONS

TECHNO METAL POST SUPPORTS YOUR PROJECTS

COMMERCIAL PROPERTIES

THE ADVANTAGES

INSTALLATION EQUIPMENT

Techno Metal Post has developed a range of hydraulic machines dedicated uniquely for helical pile installation. Regardless of which machine is used, they are all designed to perform rigorous and reliable work. No excavation is required for your helical pile-supported modular building.

WORLDWIDE CERTIFIED TECHNOLOGY

Our technology is certified and recognized by qualified officials in several countries. Our quality and reliable products are also recognized by thousands of construction professionals and clients around the world. We ensure that the installation complies with building code standards while maintaining high-quality control.

STRONG, SOLID, AND DURABLE

Increasing in popularity is the well known “Modular Building” built indoors in a controlled factory environment, then transported (generally in 2 or more sections) to its final location, to be assembled on-site on either a temporary or permanent foundation. With Techno Metal Post’s helical piles, the foundation is installed effortlessly and guarantees a solid, stable, and durable structure for years, even on difficult terrain.
