POOLS

TECHNO METAL POST

THE IDEAL FOUNDATION FOR YOUR POOL

HOW IT WORKS :

It's such a pleasure to enjoy your pool on a beautiful summer's day! However, it is essential to have a safe and stable ground to support the significant load.

Techno Metal Post's helical piles are the ideal foundation solution for your pool project, regardless of its weight.

Our piles have demonstrated their capacity to withstand compression forces while supporting the weight of a filled pool, making them the optimal foundation solution. Whether your pool is pre-cast or concrete, having Techno Metal Post's helical piles underneath it will ensure its stability, prevent wall cracks, and extend its lifespan.

WHY CHOOSE TECHNO METAL POST ?

SIMPLE AND QUICK

NO EXCAVATION

LOW FOOTPRINT

ENGINEERING SERVICE

STANDARDS COMPLIANCE

TECHNO METAL POST'S HELICAL PILES ARE CERTIFIED AND GUARANTEED
